### Eco friendly packaging

Some time ago, we decided to attempt to cut down on the quantity of paper and cardboard we disposed of in bins. A decision to shred suitable material and use for packing to fill cartons for small non-carton orders has produced an amazing result, undreamt of in the initiation.

We've been surprised at how well the shredded packing material has seemed to work, and also been amazed at how much packing material we produce just by shredding everything we can. It's been a good exercise and an amazing lesson!

If you receive any of this material in the packing of your order, we trust you like what we're doing and encourage any comments – positive or negative - you may have. Simply drop a note to [sales@soundpack.com.au](mailto:sales@soundpack.com.au)
